

## Making the Link to Your IDEA Survey Visible to Students

Go onto the course you want to make your IDEA survey visible. Go to the Course Menu and scroll down until you see the IDEA Survey Link. The square with the line through it means it is invisible.

Click on the circle with the arrow in it, when the pop-up is displayed, click on Show Link

The box with the line through it will be done, this means the survey link is visible.

To move the link to the top of the course menu so that your students can find it more easily, click to the left side of the link, when the cross appears simply drag the link to the top, or where ever you want it.
