January 15, 2021

To the SUNY Poly Community:

As we prepare for the start of the spring 2021 semester, I can appreciate that there are a number of questions that many students, parents, faculty, and staff likely have, given the health-related guidance and protocols SUNY Poly continues to follow and implement.

We have created an updated, detailed spring 2021 plan that seeks to support the health of everyone in our community. Upon approval of this plan, which we expect imminently, we will immediately share the details via a series of communications. Dedicated SUNY Poly webpages similar to the resources that were provided to our community during the fall will also be provided. Starting Feb. 1, SUNY Poly is looking forward to a successful semester, with online classes planned for all students during the first week.

All residential, commuter, and those students needing access to campus are strongly encouraged to start filling out a Pre-Screening Form beginning now and each day for 14 days prior to your arrival and prepare to engage in a precautionary quarantine for seven days before coming to campus; you will be requested to attest to completion.

We appreciate your patience as we all work to navigate the impact of the pandemic. Most of all, we are grateful for your flexibility. We will provide more information to you as soon as possible and look forward to your safe arrival to campus.

Warm Regards,

Marybeth Lyons
Vice President for Student Affairs
SUNY Polytechnic Institute
