January 27, 2021

To SUNY Poly Students:

All returning, new, and commuter students--please make sure you have read and understand the information available on the “What Students Should Know” webpage before coming to campus. It includes new requirements for the spring 2021 semester that you must follow to be able to be on campus.

These initial requirements include:

- Submitting a PCR COVID-19 test before coming to campus to the Wellness Center. The test must be taken no more than 7 days before arrival to campus.
- Fill out the pre-screening form each day prior to your arrival.
- Engage in a self-quarantine for 7 days prior to arrival to campus: Guidelines here.

Failure to follow the guidelines could lead to conduct charges/sanctions, up to and including permanent dismissal. See section I(B) sanctions.

Please find other important news and resources and health and safety precautions at our dedicated 2021 spring plan webpage.

Sincerely,

The Office of Marketing and Communications
